Breast Cancer: Detection, Prevention and Treatment

What you need to know

The more you know about breast cancer, the better your chances of preventing it or surviving it.

ECHO (Emergency, Community and Health Outreach) is proud to announce a television special designed to bring vital information on the importance of breast cancer detection, prevention, and treatment to limited English speaking communities across the state. This special presentation will be broadcast in four languages on *tpt*'s Minnesota Channel:

Sunday, October 3: **Sunday, October 12:**

Spanish 7:00 p.m. Hmong 7:00 p.m.

Sunday, October 17: **Sunday, October 24:**

Somali 7:00 p.m. Captioned/English 7:00 p.m.

Viewers will learn important information about breast cancer including: what it is, how it is treated, how to reduce the chances of getting it, and how to connect with available resources for individuals and families.

The program – “Breast Cancer: Detection, Prevention and Treatment” – is also available in multiple languages with English captions for the deaf and hard of hearing at www.echominnesota.org.
